# Setting of operating system (OS)
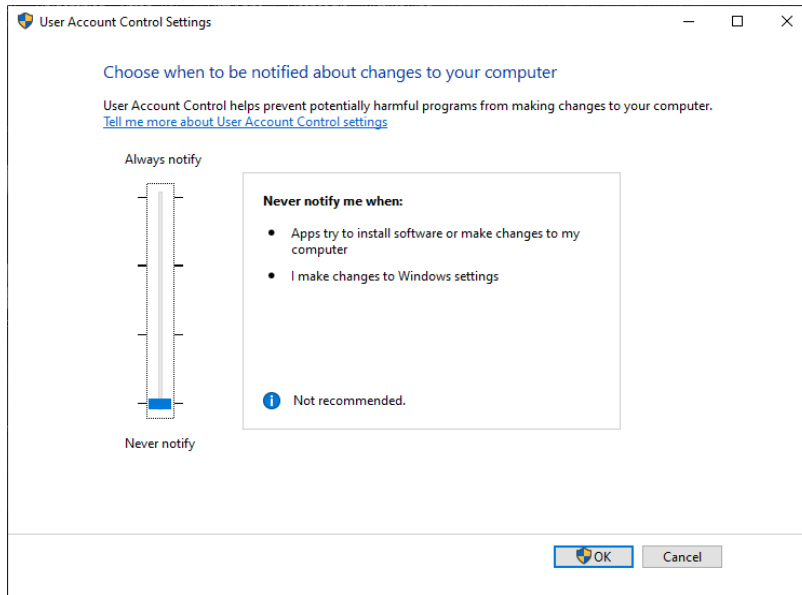

Configure setting of OS by following order.

1. Configuration of UAC (UAC: User Account Control):

1. Log on to the Windows by administrant user.
2. Click on the "Start" button and type "UAC" or "User Account Control."
3. Open "Change User Account Control settings"

4. The following window will be displayed. Change User Account Control Settings to "Never notify" and click the "OK" button.
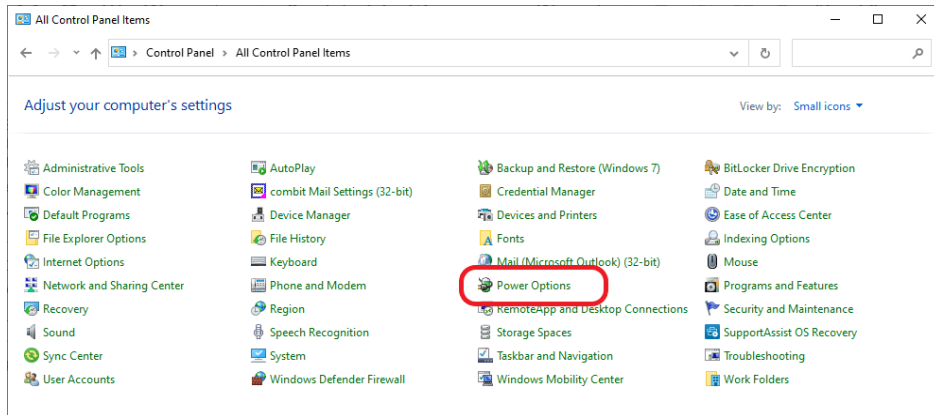

5. The following window will be displayed. Click the "Yes" button.

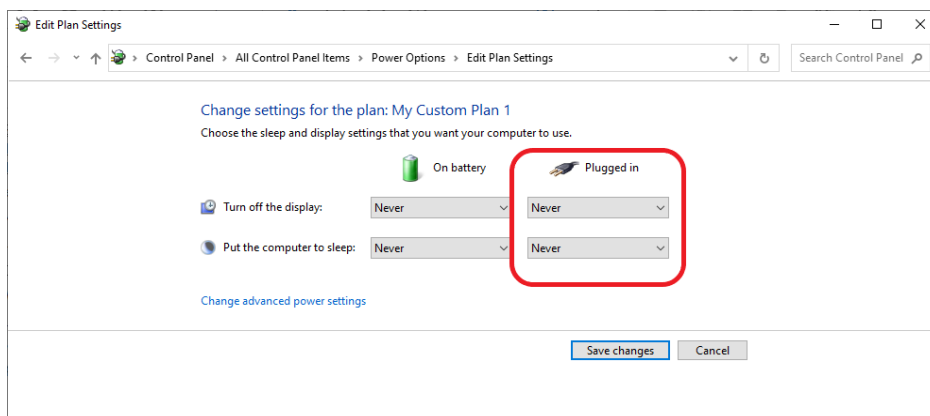

2. Power Options:

1. Click on "Power Options" in the "Control Panel"
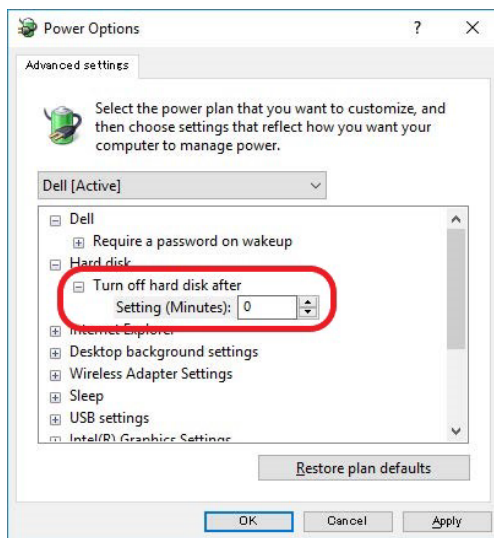

2. Click on "Change Plan settings"

3. The following window will be displayed. Select "Never" in the section of "Turn off the display" and "Put the computer to sleep".
Depending on computer specification, "Put the computer to sleep" is not shown. But it is no problem.
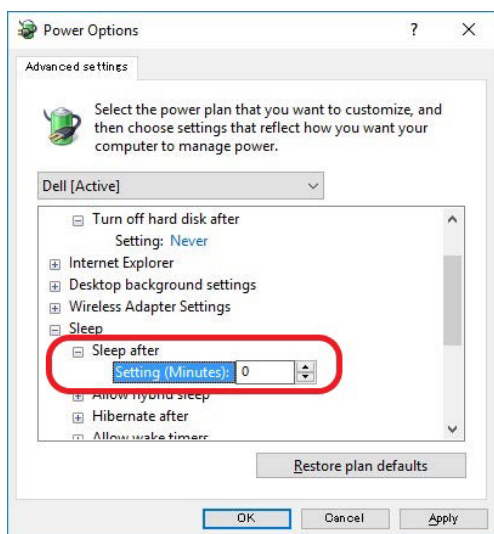

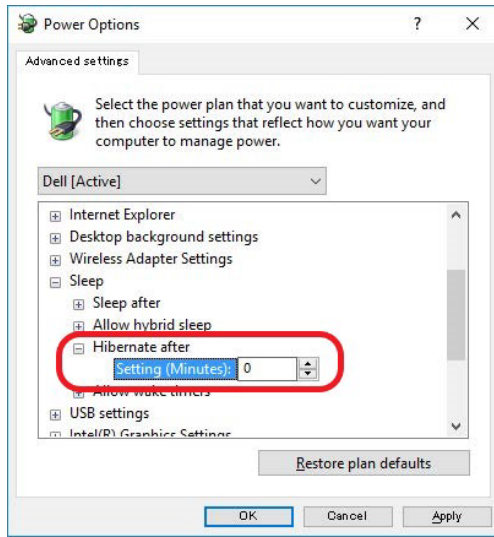

4. Click "Change advanced power settings".

5. The following window will be returned. Close this window.

6. The following window will be returned. Click the "OK" button.

7. Confirm that "0" is selected in the section of "Hibernate after" and click the "OK" button.

8. Go to "USB settings" then "USB selective suspend setting" and then set "Setting:" to "Disabled"
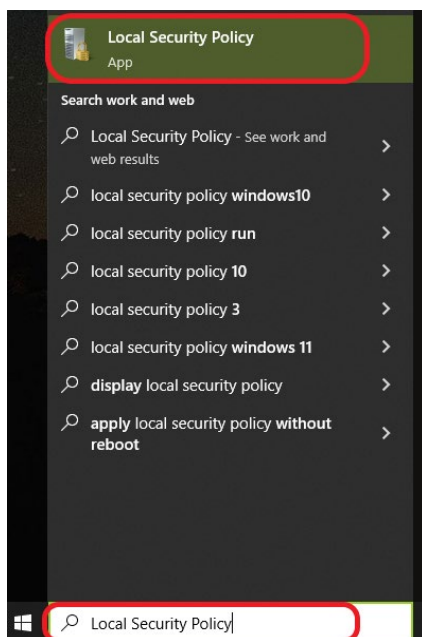

9. The following window will be returned. Click the "Save changes" button.

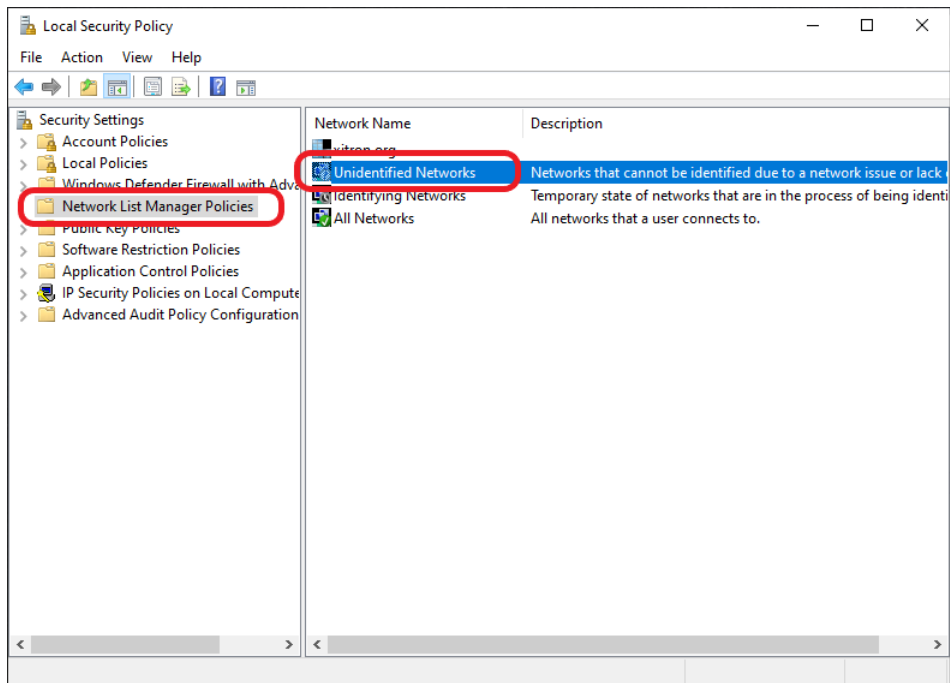

3. Switch procedure to "Private Network:

In case of current network is "Unidentified network" and "Public network", you **MUST** switch to
"Private network" to enable file sharing and response of ping command to other PCs.

1. From the "Start" menu search "Local Security Policy" and launch it.

2. The following window will be displayed. Select "Network List Manager Policies" in the left-hand panel, and double click "Unidentified Networks".
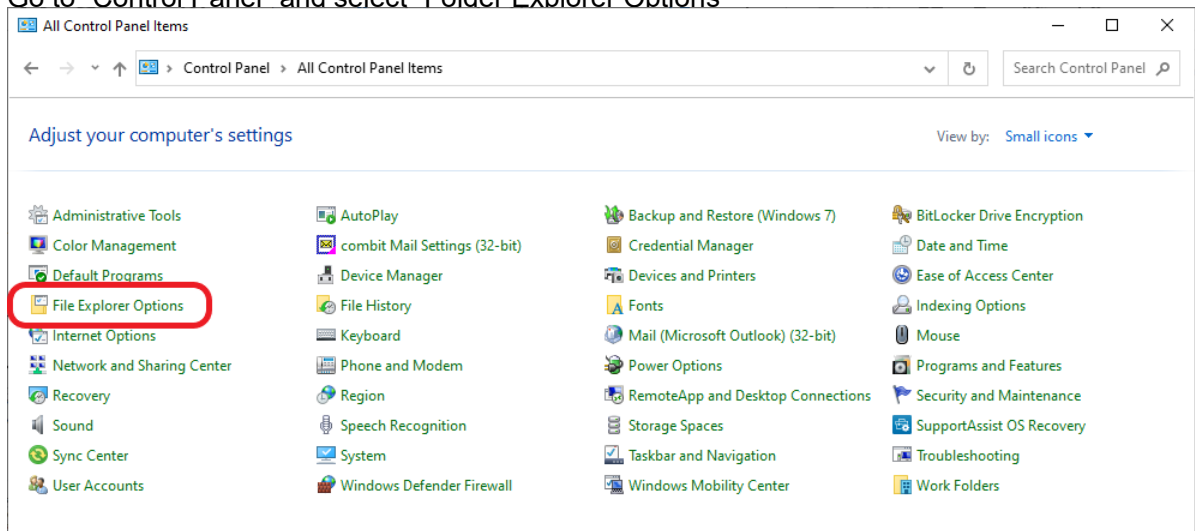

3. The following window will be displayed. Select "Private" at "Location type" and click the "OK" button. Then close the "Local Security Policy" window.

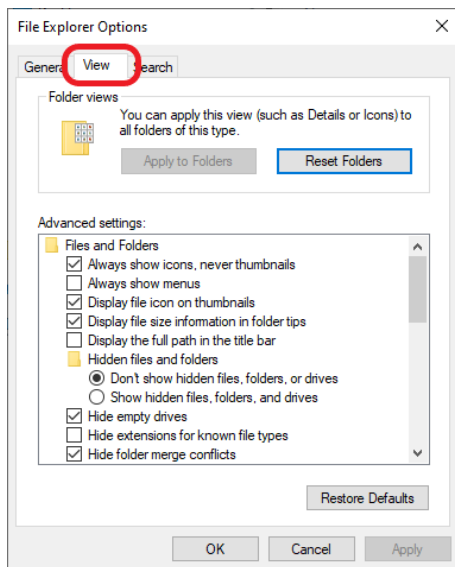

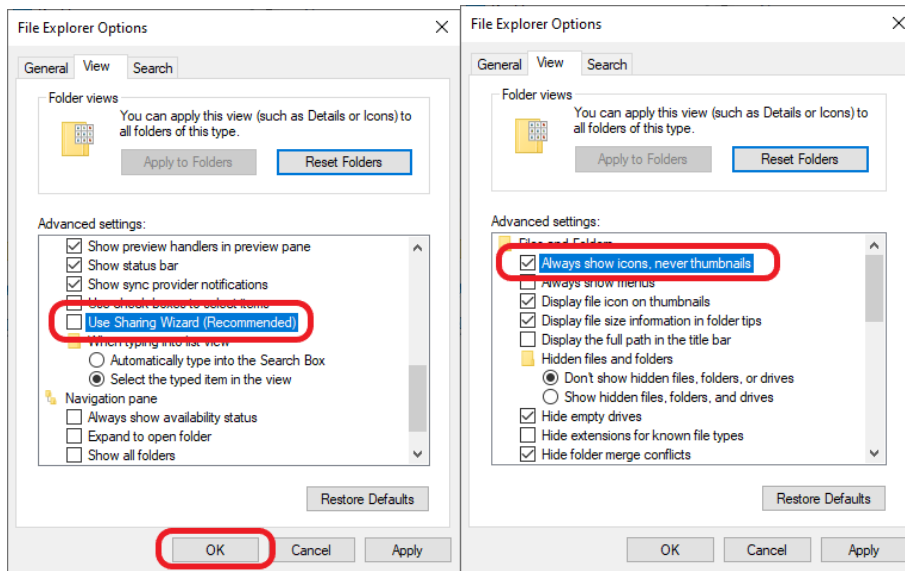

4. Folder Options:

1. Go to "Control Panel" and select "Folder Explorer Options"

2. Select the "View" tab

3. Check the box next to Always Show Icons, Never Thumbnails"

4. Uncheck the box next to "Use Sharing Wizard (Recommended)" and then click "OK"
